Constituent Manager™ for non-profits

Non-profits are being asked to report more frequently in three critical areas: 1) client demographics, 2) program participation, and 3) outcomes measurement. *Constituent Manager™* for non-profits makes this process easy and affordable. Using our software solution, a non-profit organization has the ability to report on multiple clients, programs and outcomes with the click of a button.

- ➔ Centralized client information gathering
- ➔ Program participation tracking
- ➔ Outcomes measurement and reporting

Constituent Manager™ provides the ability to capture any and ALL demographics you need.

Assigning clients to selected programs is automated, so you can monitor and report on their progress through the various selected programs.

Reporting on outcomes has never been easier! Create custom reports based upon demographic, program participation, outcomes or any other information that your organization has put into the *Constituent Manager™* system.

Built on *Microsoft Dynamics CRM* platform; *Constituent Manager™* goes beyond traditional client intake systems. It delivers **powerful, yet straightforward tools** to help manage, track, and measure client engagements and outcomes to give you a full view of your operations.

Constituent Manager™ is a web based solution. There is no software to install or maintain, and no expensive hardware to purchase. Access the *Constituent Manager™* through a web browser **securely from anywhere.**
