How it Works

BASELINE TESTING

- Baseline testing to assess the Phish-prone percentage of your users through a free simulated phishing attack.

TRAIN YOUR USERS

- Automated training campaigns with scheduled reminder emails.
- Web-based, on-demand interactive training combined with common traps, live demonstration videos and short comprehension tests.
- Ensure employees understand the mechanisms of spam, phishing, spear-phishing, malware, & social engineering and are able to apply this knowledge in their day-to-day job.

PHISH YOUR USERS

- Best-in-class, fully automated simulated phishing attacks.
- Phishing Reply Tracking allows you to track if a user replies to a simulated phishing email and can capture the information sent in the reply.
- Track links clicked by users as well as test & track if users are opening attachments.

SEE THE RESULTS

- Enterprise-strength reporting, showing stats and graphs for both training and phishing.
- Reporting for phishing campaigns as well as a general overview of your last 5 campaigns.
- Customize training based upon reporting insights.

Features

UNLIMITED USE

- Three Training Access Levels giving you access to the content library of 300+ items based on your subscription level. Unlimited access to all phishing features.

CUSTOM PHISHING TEMPLATES

- Hundreds of easy-to-use existing templates.
- Customizable scenarios based on personal information, creating targeted spear-phishing campaigns.

CUSTOM LANDING PAGES

- Custom Landing Pages, which allows for point-of-failure education and landing pages that specifically phish for sensitive information.

SIMULATED ATTACHMENTS

- Templates can include simulated attachments in the following formats: Word, Excel, PowerPoint and PDF, and zipped versions of these files.

DETAILED REPORTING

- Full reporting for phishing campaigns as well as a general overview of your last 5 campaigns
- Granular drill-down into one-time and recurring campaigns for more detail.
